Skills

Adaptable

Team-Focused

Motivated

I have been coding ever since highschool, and overtime I decided to focus on Javascript. From there I have graduated from a web development course from a coding bootcamp known as Nucamp and I'm ready to get into the field as a Front End Web Developer. I'm very comfortable with utilizing the React library in all my projects, and continue to learn new and innovative ways to become a better programmer.

[Portfolio](#) / React

My portfolio project that was made in React.

Front End Javascript Libraries

React

React Native

[Trivia-App](#) / React

A React trivia app that tests your knowledge in various categories.

[Pokedex](#) / React

Browse through various Pokemon with the power of PokeAPI

API/State Libraries

Zustand

Axios

Redux

Atlantic Technical College /

October 2021 - April 2022, LOCATION

A trade school I enrolled to eventually start my journey as a Front End Developer
